INTRODUCTORY NOTE

1. As a step toward assisting the readers to make the maximum use of its resources, the Library has undertaken to issue in several parts a list of periodicals and certain serials it currently receives.* Each part will be devoted to a broad subject area. This second part in the projected series lists periodicals dealing with Public Administration and Management.

2. Arrangement

Periodicals are listed alphabetically by their latest title. However, if a periodical or serial is issued by a government agency, it is entered under the name of that agency. Similarly, if a title consists of a single generic word such as bulletin (boletim, boletin), journal, review (revue, rivista) etc., it is entered under the name of the issuing organization. A reference is made in all such cases from the title to the name of the issuing organization.

3. Bibliographic Data

Bibliographic data which are provided for each title include the place of publication, the frequency of issuance (see list of abbreviations) and the volume number and/or the year of the beginning of the Library's holdings. In the case of periodicals which are not retained indefinitely, the number of years for which the title is kept is shown rather than the volume number and/or the year of the beginning of the Library's holdings. Appropriate information is provided in a note when a periodical contains text in more than one language, or is issued in different language editions, etc.

4. Loan and Circulation

Location of the periodicals is shown by the call number or the notation "Unclass." at the beginning of each entry. All periodicals which have either X or "Unclass." as part of their call number are located in the periodical stacks and may be obtained from Room L-1B-10, extension 830. Periodicals or serials which have a UDC call number (e.g. 350(058) A61) are located in the main stacks and may be obtained from the Loan Desk, Room L-105, extension 2695. Periodicals or serials whose call number
